

# Price LCAP Presentation Spring 2025

# Updates & New in 24/25

- 20 students took RAMP UP the second semester of this year - that is up by 8 students.
- MANGO
  - Spanish Exploratory -
    - Amy Crafford using Mango about 20 minutes a day. Students and teacher really like it.
  - Spanish 1 & 2
    - Mr. Segovia is using it about an hour a week and will continue to do so
  - ELD 1 & 2
    - Mrs. Fore uses Mango in conjunction with Read 180.

“Read 180 helps me with pronunciation and Mango helps me with conversations.” ELD 2 student

# Progress on Plans from Fall LCAP

- Focus on Equitable Grading
- Robust MTSS/Leadership team
- Attendance Improvement, specifically Sped Students
- Beautify the Campus
- Focus on EL Students
- Monitor New Science Implementation
- Parent Engagement

# Equity in Grading

- All teachers have weights instead of points \*
- Departments have similar or the same grading categories and weights
- Still working on behavior grade v. academic grade (effort v. knowledge)

How did we get there..

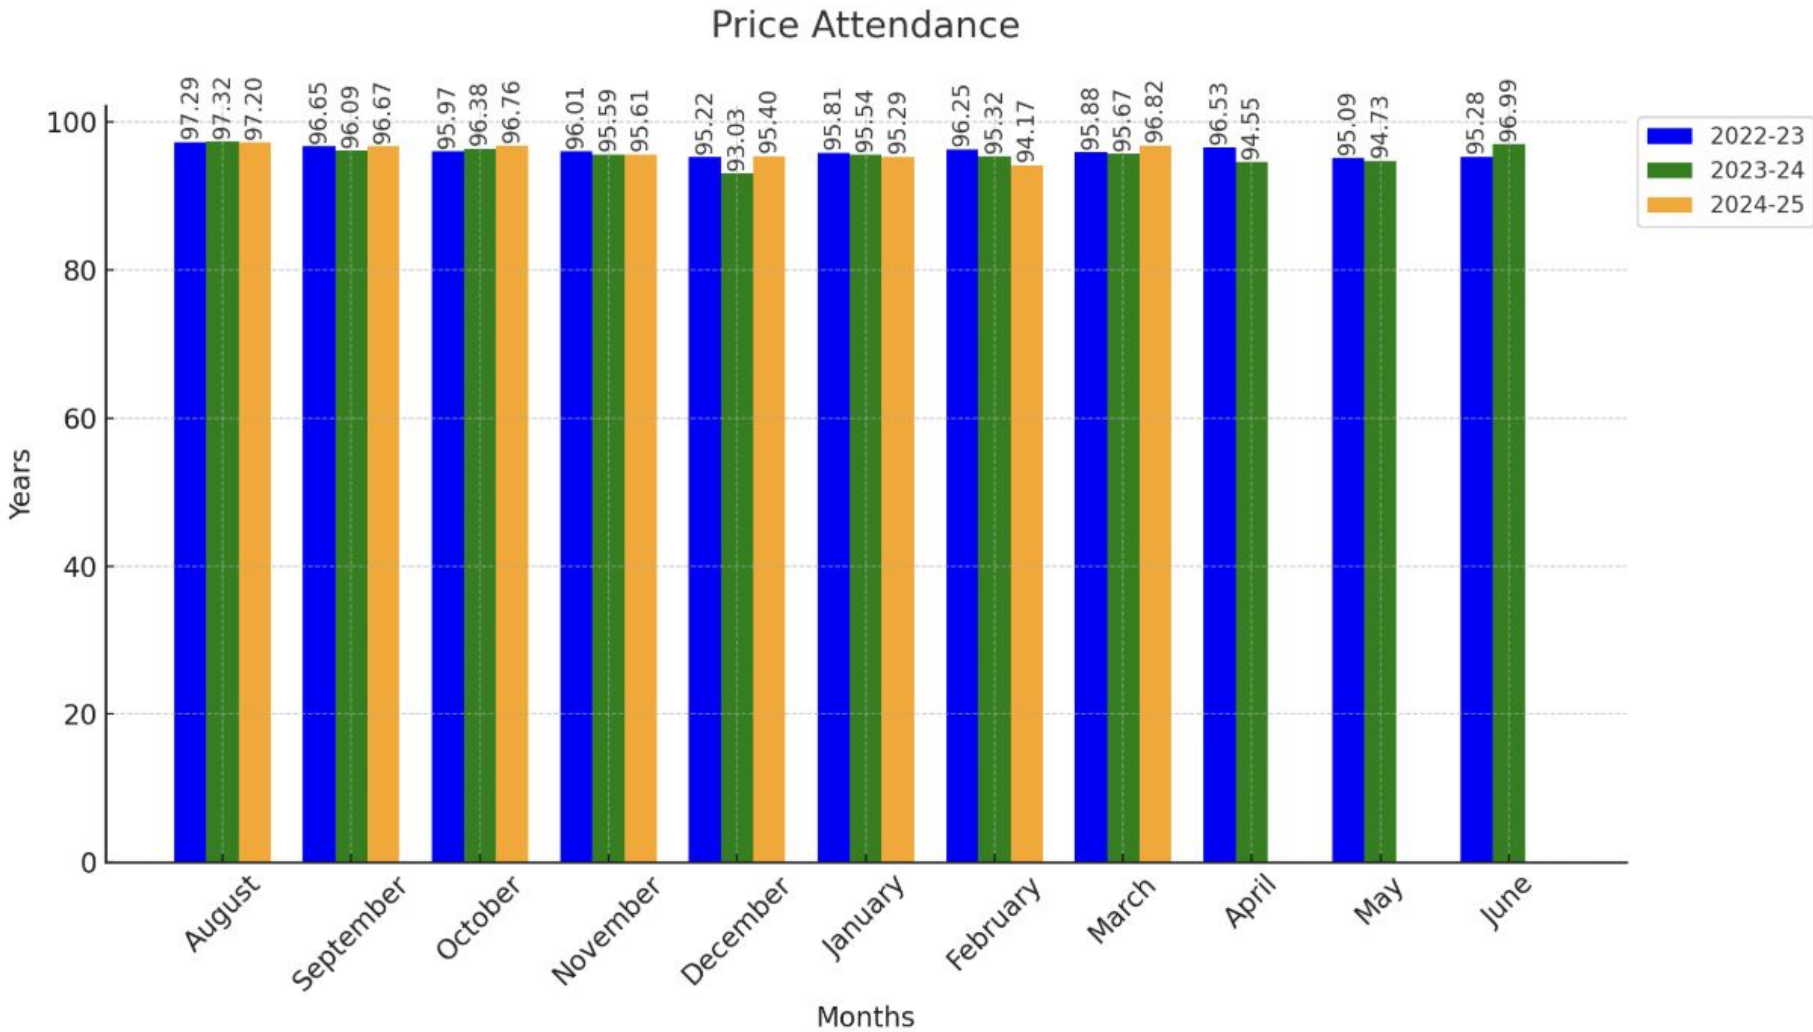

- Crescendo staff presentation in October
- District MTSS (with Julie Orlando, Chrissy Terwilliger, and Angela Kochiyama)
- Admin brought it to Leadership/MTSS
- Staff presentation by Angela Kochiyama
- Follow Up at Department and Grade level meetings to do the practical work and get continuity.

\* Exception is the Music Department

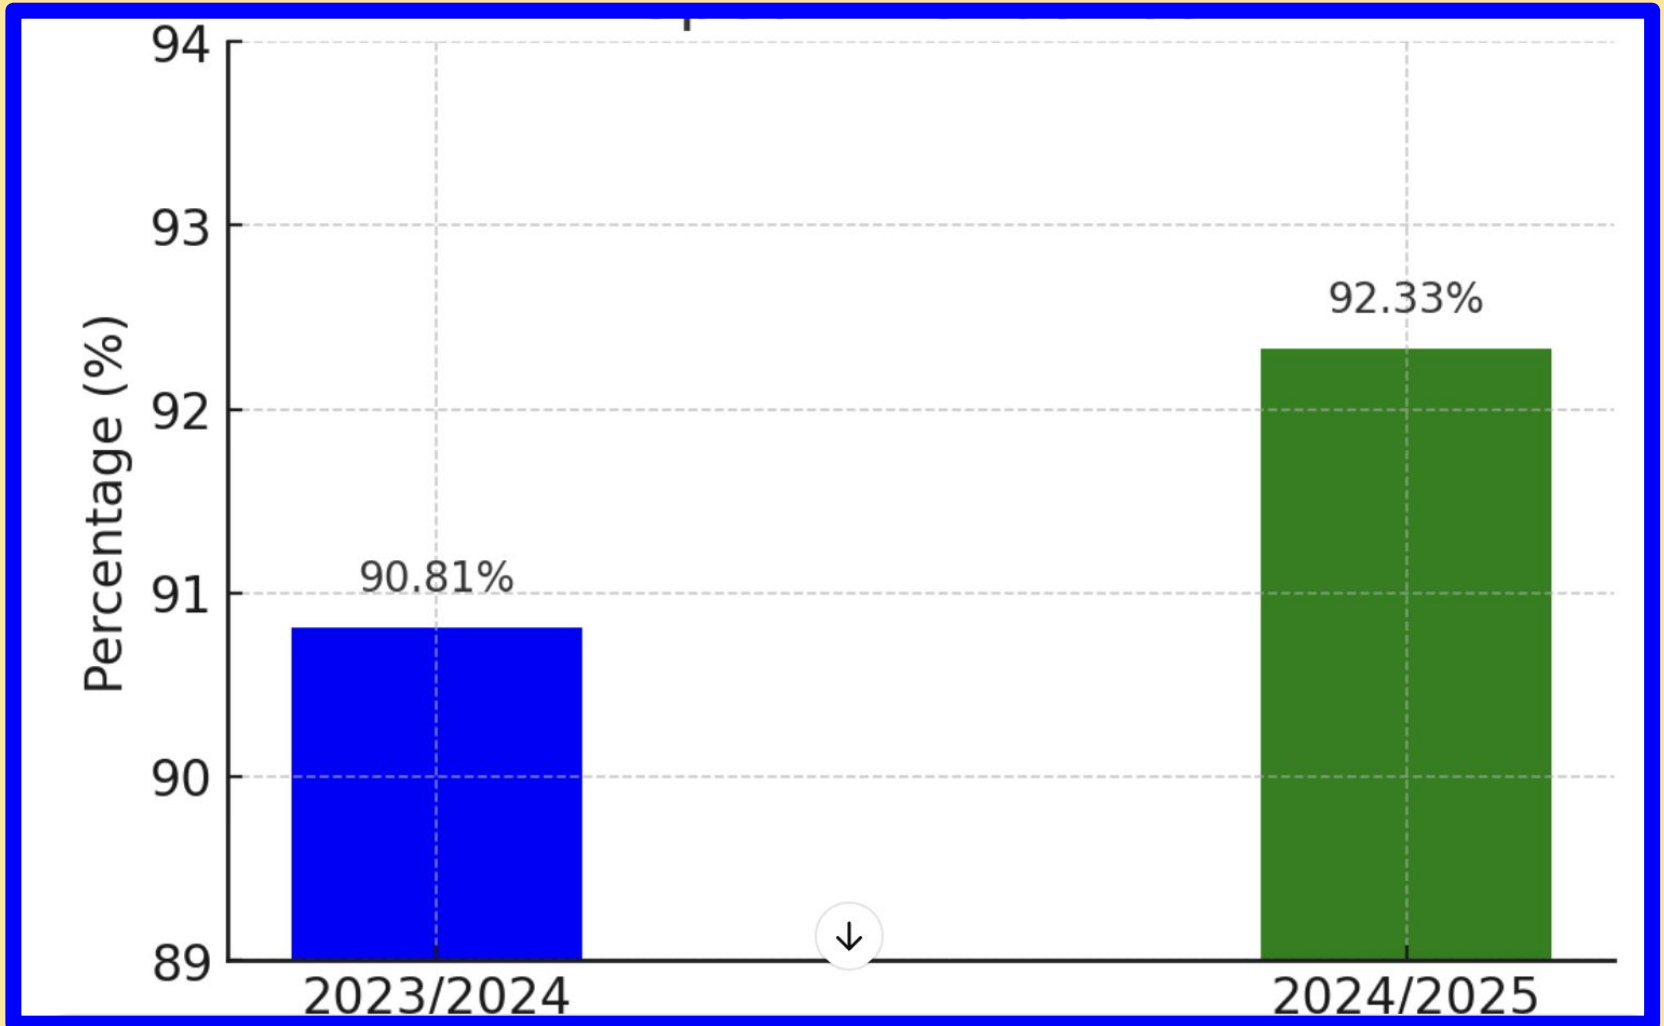

# Robust MTSS Team

- MTSS/Leadership meetings support grade level meetings, department meetings, and staff meetings.
- Department meetings focused on Tier 1 interventions
  - This drives Tier 2 interventions and SST process

# Attendance - All Students

# Attendance - Sped

# BEAUTIFY

Students in Project Lead the Way created nesting houses that will be hung around campus.

# Beautiful Day Project

Ida Price Beautiful Day project:

**Planter boxes raised** for the sitting area for students and staff. This is their number one wish list. Planters are falling apart and are too low to sit on for students to do projects. This space would be used as an outdoor classroom area. Currently it is too low to sit. It also needs drought tolerant and nicer looking plants. It would be a great place for students to be able to enjoy the outdoors. I think I counted 4 boxes, I only took 3.

## Mural Project - Carrie Lyons-Lao

Each student and staff member will glaze one tile according to a series of simple questions that define who they are. Each tile will create a unique design that will come together to create a colorful kaleidoscope representing the people who frequent this campus.

This tile collage will be located between room 2-3 where students enter and exit campus. (The old mural will be covered.)

# Eagle Scout Candidate Xander Anthony is building two picnic benches with umbrellas for our Science Garden

# Focus on EL Students

## Who are our Middle School ELs?

102 students

10.6% of the total middle school student population

- ELPAC Level 1: 17
- ELPAC Level 2: 22
- ELPAC Level 3: 25
- ELPAC Level 4: 36 (with 13 potential RFEPs)
- ALT ELPAC: 2 students (one level 2, one level 3)

# How to View Individual ELPAC Score Reports in PowerTeacher

1. Look up an EL student
2. Click on the Student Information icon
3. Select Score Report
4. Under Assessment, select Summative ELPAC
5. Under School Year, select 2023-24 (ELPAC is taken in the Spring)
6. Click Get Report (the ELPAC is listed as **ESA**)

## EL Progress Monitoring

We had 55 students who we needed to Progress Monitor (students who RFEP'd within the last 4 years). One of the things we're required to do is to determine if any of the students need additional support that they're not currently getting. We had zero students identified as needing additional help this year. This shows that our students are placed appropriately and that our teachers are able to meet the needs of these students in their classes.

# Monitor New Science Implementation

6th Grade Inspire Earth Science Lab

# Science Inclusion Class

## Testimonies:

Briana Taylor - 6th Grade Science Teacher

“Inclusion in 6th grade is going very well! Identified students are very curious about science and excited to come to class. They have a lot of support but are also practicing their independence and learning what works best for them. They love doing labs and collaborating with their general education peers. Meanwhile, general education students are practicing patience and empathy and have been very supportive.”

# Science Inclusion Class

## Testimonies:

Patty VanCampenhout - 7th Grade Science Teacher

“The experience has been good for both identified and general students. General education students get the opportunity to repeat what they know to solidify their understanding. All students have development empathy and patience.”

# Science Inclusion Class

## Testimonies:

Gayathri Ramakrishnan - 8th Grade Science Teacher

“Many of the Sped students are very capable and are doing well in my class with a grade of C or above. A few of the Sped students struggle to get a good grade but enjoy the labs and are active participants. Having the students helps teach my gen ed students (and me!!) empathy, kindness, and patience.”

# Science Inclusion Class

## Testimonies:

Lisa Augenstein - Mild/Mod SDC Science Teacher

“Overall, the Science inclusion has been a positive experience for all stakeholders. All students benefit regardless of their ability level.

Inclusion has allowed all students to have access to the general education science curriculum that is taught with fidelity and will prepare them for the rigors of high school.

All students aren't just learning empathy and understanding, they are practicing it!

All students experience opportunities for collaboration and mentorship.

All students are learning to develop social skills and abilities that are essential for success in navigating higher education, workplace, and the community.

Patty, Gayathri, and Briana have been exemplary to work with, I could not ask for a better team - just more time for collaboration!”

# Parent Engagement

## 5th Grade Parent Tour Slideshow

### RUPTURE REPAIR WORKSHOP

### Screen Time Agreements That Stick

with Lisa Rothman

#### Event Information

Screen Time Agreements That Stick

#### When?

Thursday, Mar 27, 2025, 06:00 PM

#### Where?

Ida Price Charter Middle School, New Jersey Avenue, San Jose, CA, USA

# NEW & IMPROVED FOR 25/26

(30)

(39)

## LCAP Goal 1 - High Academic Achievement

Provide high quality and dynamic instruction for all students (including EL, SED, Foster Youth, and Sped) while preparing them for 21st century college and career readiness.

### NEXT STEPS

- Review EL PD with GLAD strategies - BIG EMPHASIS on GLAD
- More collaboration in Inclusion Science with newly adopted NGSS.
- Analyze assessment data during MTSS meetings, share insights with staff, and implement targeted professional development based on identified needs.
- Recruit highly qualified teachers
- Continue support of new teacher

# Goal 2 - Effective Leadership, Teaching, and Learning

High quality staff through recruitment, retention and professional development.

Super Staff

Dream Team

## NEXT STEPS

- Look for more Professional Development Opportunities
- Take advantage of in-house experts (Jenny Fore, Ashley Davis)
- Calendar observation days for teacher - to observe each other

# LCAP Goal 3 - Positive School Environment, Climate, & Culture

## Supportive environment so that students can reach their full academic potential.

## NEXT STEPS

- Host student listening sessions to promote a culture of kindness and inclusivity.
- Review Proud Matrix and discipline flowchart with staff
- Educlimber PD

## LCAP Goal 4 - Strong Parent and Community Engagement

Promote a welcoming and inclusive environment for all parents, families and community stakeholders as partners in the education and support of all students' success in school.

### NEXT STEPS

- ELAC parent breakfast in August for outreach
- Recruit parents for School Site Council
- Continue Parent Nights

*Thank you!* ❤️

*Questions?*
