 - Device at home would enhance learning: 92%
- **Students (1,114 responses)**
 - No Access to Internet: 2%

Student Device Take Home Program Plan

Next Steps

- Update Digital Citizenship content for the program to reflect lessons learned from spring pilot
- Based on device return rate this spring:
 - Purchase as needed spare accessories such as chargers
 - Update device attrition rate (currently at 10%)
- Enable site-based device check out/in
- **Purchase long term solution for off-premises filtering and monitoring for school devices**
 - **Cost: \$20K Annual**
 - **Note:** Cost was included in [Staff recommendation](#) as a per device cost of ownership
- Plan rollout with Principals for the Fall
